## OPERATING INSTRUCTIONS

Before filling hopper, become familiar with the operation of this spreader.

- ☑ Obtain proper setting for material to be used from the SETTING MATRIX included with this spreader.
- ☑ Move stop bolt on rate gauge assembly to the proper setting.
- ☑ While turning handle crank and walking forward, push control lever forward to the stop bolt. To stop, pull lever back to close flow holes while continuing to crank handle and walking forward.
- ☑ When finished, empty any remaining material from hopper.
- ☑ Thoroughly wash spreader and allow to dry before storing.
- ☑ No oiling is necessary.

The settings furnished on the Rate Setting Matrix are intended as a guide only. Variations in physical characteristics of material applied, walking speed, and roughness of ground surface may require slightly different spreader settings. Due to the above conditions, the manufacturer makes no warranty as to the uniformity of coverage actually obtained from the settings listed.

## HOW TO ORDER SPARE PARTS

All spare parts listed herein may be ordered direct from the manufacturer. Be sure to give the following information when ordering.

# Hand Crank Spreader Rate Setting Instructions

## YOU WILL NEED

- Tape measure
- Pencil & Pad
- Scale
- Bucket/container

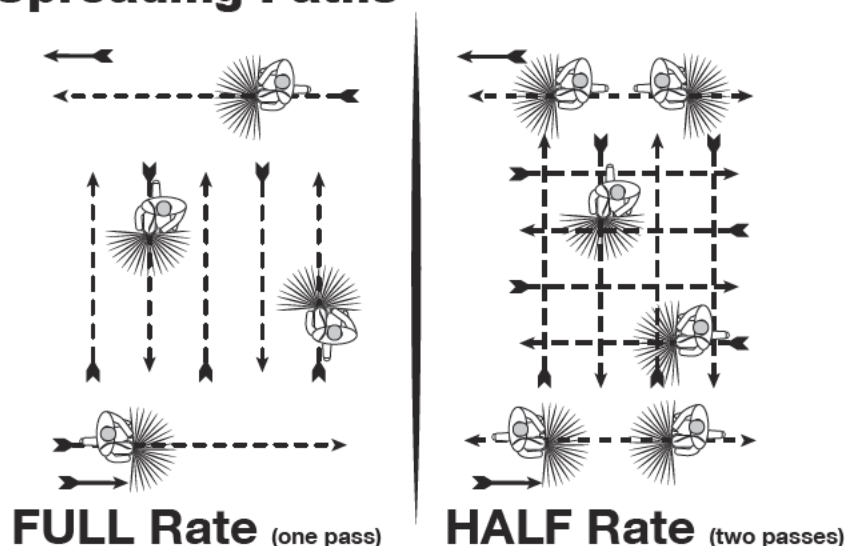

## To Calculate RATE SETTINGS: (Use the Chart on the next page to fill in numbers)

- ✓ Determine how much material is to be applied per 1,000 sq./ft. This is determined on the bag based on bag weight and total area of coverage if not directly stated on the bag the recommended number of pounds per 1,000 sq./ft.
- ✓ Measure off a distance of 50 feet, preferably on a paved surface such as a parking lot.
- ✓ Weigh out enough of the material to be applied to fill the bag/hopper at least half full.
- ✓ Record the weight for future use.
- ✓ With the unit positioned correctly for comfortable use, (on your left hip for 2700A/2750 or on your chest for the 3100/3200 models) and the bag/hopper at least half full of the material to be spread, position the yourself far enough before the beginning of the 50 foot test area so that you will achieve the desired speed before you reach the starting line.
- ✓ Select the Setting Rate position that you feel would be an appropriate setting on the seeder/spreader (start in the middle).
- ✓ Start walking at a NORMAL pace cranking the handle so that it makes one revolution for each step with either your right or left foot to ensure the proper distribution rate.
- ✓ As you cross the starting line (of the 50 feet) move the rate lever to the open position against the stop.
- ✓ Continue from the starting line with the unit spreading the material. As you cross the finish line move the rate control lever to the closed position.
- ✓ Stop walking and measure the spread width and note it below.
- ✓ Return to the start point and empty the remaining material from the hopper into your weighing container and re-weigh.

## Spreading Paths

## CHART

Desired Application Rate (lbs./1,000 sq. ft.) \_\_\_\_\_

To determine the desired application rate divide the area (sq. ft.) that the bag says it should cover, by the weight of the bag, and then multiply by 1,000. (Example: 5,000 sq. ft. / 25 lbs. = .005 x 1,000 = 5lbs. per 1,000 sq. ft.)

\_\_\_\_\_ Weight of Material Placed in Bag/Hopper  
 - \_\_\_\_\_ Subtract the Weight of Material Left in Bag/Hopper  
 = \_\_\_\_\_ Weight of Material Used

**X** \_\_\_\_\_ Multiply by the Width of Spread Area by Length (50 feet)  
 = \_\_\_\_\_ Total Spread Area

Divide the Weight of Material Used by the Total Spread Area = \_\_\_\_\_ lbs./sq. ft. Multiply the lbs./sq. ft. from above times 1,000 = \_\_\_\_\_ lbs./1,000 sq. ft.

Compare the results of your test to the desired application rate.

Adjust the rate setting stop accordingly and run through the test again. Repeat this process until you have achieved the desired application rate.

These settings are intended as a guide only. Variations in physical characteristics of material applied, brisk walking speed (3 mph.), and roughness of ground surface may require slightly different spreader settings. Due to the above conditions, Earthway Products, Inc. makes no warranty as to the uniformity of coverage actually obtained from the setting listed.

**SCHEDULE A - WARRANTY TERMS****Limited Warranty**

EarthWay Products, Inc. provides this limited warranty that this product is free of defects in original workmanship and materials for a period of one year to the end user with the original purchase receipt. If a manufacturing non-conformance is found, EarthWay Products, Inc. at its discretion will repair or replace the part(s)/product at no charge provided the failure is not the result of incorrect installation, mishandling, misuse, tampering, improper storage, or normal wear and tear as determined by EarthWay. Due to the corrosive nature of most fertilizers and ice melt products, EarthWay Products, Inc. makes no warranty against and specifically excludes part(s) or product degradation or failure due to corrosion or its effects.

EarthWay at its discretion may require that the part(s) or product be returned along with the original purchase receipt for examination and compliance with the terms of this limited warranty. Do not return any product without first receiving authorization from EarthWay Products, Inc. IN NO EVENT SHALL EITHER PARTY BE LIABLE TO THE OTHER FOR SPECIAL, INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, EVEN IF SUCH PARTY SHALL HAVE BEEN ADVISED OF THE POSSIBILITY OF THE SAME.

To seek remedy under this limited warranty, contact EarthWay Products, Inc. at [support@earthway.com](mailto:support@earthway.com) or write to EarthWay Products, Inc. 1009 Maple Street, Bristol, IN 46507, and describe the nature of the manufacturing defect. SPECIFIC LIMITATIONS: This limited warranty covers only the part(s) or product; any labor charges associated with the repair or replacement of non-conformances are specifically excluded.

The above-listed warranty procedure is a condition precedent to bringing any legal action to enforce this limited warranty. Any action to enforce any portion of this limited warranty must be commenced within ninety days after the expiration of the limited warranty coverage period. Any performance of repairs will not suspend this limitation period from expiring unless state law provides otherwise. Any performance of repairs after the limited warranty coverage period has expired, or performance of repairs regarding anything excluded from coverage under this limited warranty shall be considered "goodwill" repairs, and they will not change the express terms of this limited warranty or extend the limited warranty coverage period.

Exclusive jurisdiction for deciding legal disputes relating to alleged breach of warranty or representations of any nature relating to this limited warranty must be filed in the courts of Elkhart County within the State of Indiana. Any and all claims, controversies, and causes of action arising out of or relating to this limited warranty, whether sounding in contract, tort, or statute, will be governed by the laws of the State of Indiana, without giving effect to any choice or conflict of law provision or rule.

NO OTHER WARRANTY, EXPRESS, IMPLIED, OR STATUTORY, SHALL APPLY, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY, APPLICATION, OR FITNESS FOR A PARTICULAR PURPOSE, OR ANY OTHER WARRANTY OBLIGATION ON THE PART EARTHWAY, AND ALL SUCH WARRANTIES ARE EXPRESSLY DISCLAIMED. In the event that applicable law prevents the disclaimer of any implied warranties, then such implied warranty shall be limited to the fullest extent permitted by law. Without limiting the foregoing, if applicable prevents the disclaimer of any such implied warranties, this limited warranty limits the period of time in which a claim for breach of implied warranties, including but not limited to the implied warranty of merchantability or fitness for a particular purpose, may be filed. In such event, any claim for breach of implied warranty must be brought before the expiration of this express limited warranty's one-year term.
