

This is a list of all the seed plates currently produced for the 1001-B & 10001 Precision Garden Seeder.

Information:

The Precision Garden Seeder chassis travels 36"/91.4cm for every revolution of the seed plate. Custom seed spacings can be achieved by utilizing the blank seed plate (60010 kit) to fit other planting spacing and seed sizes. Smaller seeds will stick together due to humid conditions. Dip the plate in soapy water and let dry or utilize an 3rd party seed powder (Seed SLIK - slipplate.com) to prevent your seeds from sticking together.
